Passenger Fare Construction Handbook (PFCH)

IATA Passenger Fares Construction Handbook offers explanations in plain language and easy-to-follow illustrated examples. Upcoming changes to fare construction rules are explained in the handbook. Equipped with self-assessment exercises and answer keys, the book is an ideal training resource.

Key Benefits:

- Contains the full range of fare construction rules and procedures from simple to complex.
- Explanations in plain language and illustrated by easy to follow examples.
- Useful references to IATA Composite Resolutions and other sources.
- Publishing Frequency: Annual (October)
- The book comes with a CD-ROM for a convenient access to the content, and web updates for annual subscribers.

Price (7744)	USD
Regular	\$235
Strategic Partners	\$199
IATA Members	\$164

Ticketing Handbook (THB)

Prepared by an international group of ticketing experts, the Ticketing Handbook is the official guide to worldwide airline passenger ticketing. The THB thoroughly details what entries to make on tickets, MCOs and PTAs; and it now includes expanded coverage of automated ticketing guidelines and electronic ticketing.

This Handbook clarifies even the most complicated fare calculation rules by explaining each ticketing principle in easy-to-understand language and examples.

The Ticketing Handbook comes with a CD-ROM that features an electronic version of the manual (in Adobe Acrobat PDF format) to facilitate searching by use of key words and some blank ticket facsimiles to be used in training.

Key Benefits:

- Quick reference for fare calculation and ticketing entries
- Clear explanations of ticketing principles and procedures
- Up-to-date information on e-ticketing

Price (7745)	USD
Regular	\$119
Strategic Partners	\$102
IATA Members	\$85

IATA Suite of Tax Products

A complete suite of tools to help airlines, GDS systems, and service/solution providers to process and settle taxes, fees, and charges, with speed and efficiency. The secure web-based applications offer user-friendly interfaces with expanded search capabilities.

Key Benefits:

- Ensures accuracy in collecting and remitting taxes, fees and charges for each ticket
- Automated environment with no special software required
- Look-up feature with data sorted, filtered and grouped by airport, country, currency and tax code, and flight segment.

The IATA Tax Products come in three possible formats tailored to fit different needs. A combination of the tax products in addition to other services and events may be obtained through the purchase of one of the two available TOP Premium solution packages.

Ticket Tax Box Service (TTBS)

TTBS is the most comprehensive database available for current information on air passenger taxes, fees, and charges with monthly updates.

Price (7746)	USD
Regular	\$6,922
Service Providers	\$5,191
IATA Airline Members	\$3,461

Revenue Accounting Tax Database (RATD)

Derived from TTBS, the RATD is customised for Revenue Accounting to process interline billing. It is the industry reference for the coded taxes, fees, and charges that are to be collected and remitted for interline tickets.

Price (7749)	USD
Regular	\$6,400
Service Providers	\$4,800
IATA Airline Members	\$3,200

IATA List of Ticket and Airport Taxes and Fees (Tax List)

The Tax List is a quick reference for all taxes, fees, and charges. This worldwide information is provided on a quarterly basis in a choice of CD or web download.

Price (7747/7748)	CD	Web Download
Regular	\$935	\$746
Service Providers	\$935	\$746
IATA Airline Members	\$935	\$746

TOP Premium Daily (package)

Combining the Ticket Tax Box Service (TTBS) and Revenue Accounting Tax Database (RATD) in daily updates, TOP Premium Daily is the most comprehensive and up to date solution available for current information on air passenger taxes, fees, and charges with daily updates and e-mail alerts.

- Ticket Tax Box Service – Daily updates
- Revenue Accounting Tax Database – Daily updates
- IATA List of Ticket and Airport Taxes and Fees

Tariff Coordinating Conference Composite Manuals

The ‘Composite Manuals’ provide the most up to date Tariff Resolutions divided into five different important pillars:

Common Industry Definitions – Provides common understanding and standard application of the fare-related definitions applicable to the Resolutions of the Passenger Tariff Coordination Conferences.

Mileage Principles - Establishes a standard application of mileage.

Fare Construction Principles - Fare construction rules for journeys, pricing units, fare components and fare construction checks.

Common Currency Application - Common currency standards, such as codes and rounding rules for fare construction application and interlining.

Interline Baggage Acceptance Rules - Standard conditions for Interline baggage acceptance, free baggage allowance standards and regulations from where members could deviate if commercially deemed necessary.

Administrative Resolutions – Contains Resolutions to facilitate and explain the Government filing procedures for any adopted IATA package. It now includes the outstanding government approvals.

The ‘Composite Manuals’ are available in electronic version in combination with the subscription to the online library. It provides the user with monthly updates to always have the latest information at hand. It is also available in published version.
